1. The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is one of the most important and most difficult in the history of science. The author discusses the various theories of the origin of life, and shows that the most plausible is the theory of spontaneous generation. This theory is supported by the fact that life is found everywhere, and that it is impossible to create life in the laboratory.

Missa triumphans, or, The triumph of the mass;
wherein all the sophistical and wily arguments
of Mr de Rodorf against that thrice venerable
sacrifice, in his funestuous tract, by him
called, The funeral of the mass, are fully,
formally, and clearly answered. Together with
an appendix by way of answer to the translators
preface. By F.P.M.O.P. Hib. ...
